HEIGHT GUARD

SONCO's Height Guard lets you display the message you need, improving safety and clarity across your Parking Facilities.

HEIGHT GUARD

Material: High-density polyethylene for strength, durability, and fade resistance.

Visibility: Recessed reflective stripes in red or white for day-night visibility.

Customizable: Graphic options available for custom driver-alert messages.

FLEXIBLE DELINEATORS & ROAD MARKING SOLUTIONS

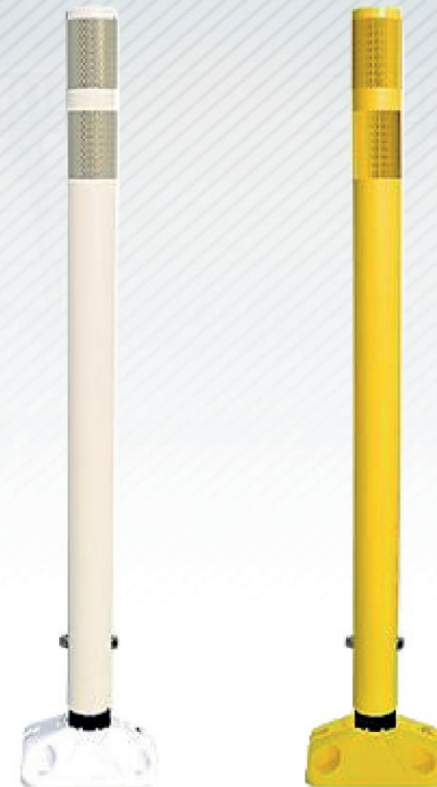

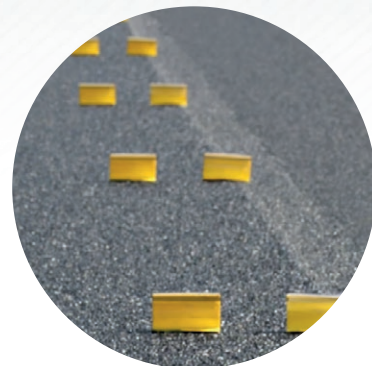

Part of SONCO's nationwide safety lineup — flexible delineators, reflectors, and markers engineered to meet standards, stocked for quick delivery, and built for long-term performance.

Reflectivity: High-grade materials chosen to meet visibility standards.

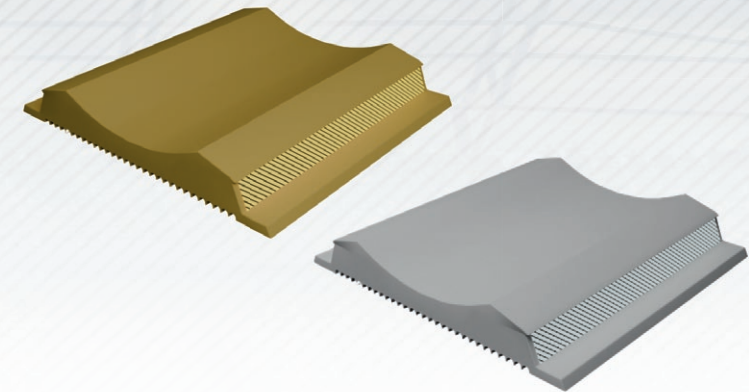

Material: Long-lasting construction designed to handle heavy traffic and weather.

SPEED BUMPS

SONCO offers modular rubber speed bumps in standard, reflective, and heavy-duty designs — with matching end caps for a clean, secure finish. All stocked and ready to ship for quick installation.

Material: Made from recycled rubber or heavy-duty plastic for long-lasting use.

Installation: Pre-drilled holes for quick setup on asphalt or concrete surfaces.

6' RUBBER SPEED BUMP

END CAP FOR RUBBER SPEED BUMP

PARKING BLOCKS

Tough, eco-friendly stops built to withstand heavy use, with SONCO's quality and reliability for long-term performance.

Visibility: Bright colors and reflective options for safer navigation in lots and garages.

Installation: Pre-drilled for quick anchoring and long-term performance.

PARKING BLOCK SPIKE

PAVEMENT MARKING SUPPLIES

SONCO offers a full range of water-based striping paints, including thermoplastic and traffic paints, in multiple colors.

Capacity: Holds one active can and a full case for quick changes.

Flush Handle: Flush design prevents snagging; sealed fill port stops leaks.
