METAL BARRICADES

Durable Metal Barricades for effective crowd control—easy to set up, with lightweight and heavy-duty options available.

16-gauge steel is the reliable choice for heavy-duty applications.

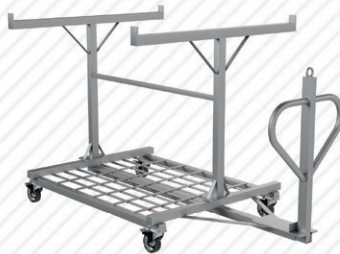

Hooks inserted before welding for secure interlocking configuration.

Removable feet make barricades easier to stack and store.

Rust-resistant hot-dipped galvanized finish for years of use.

Cart Bundle
[25] 43in x 96in heavy-duty interlocking metal barricades with Storage Push Cart | 30 barrier capacity.

OUTDOOR DISPLAYS

Stylish solutions for brand display and advertising while providing shade.

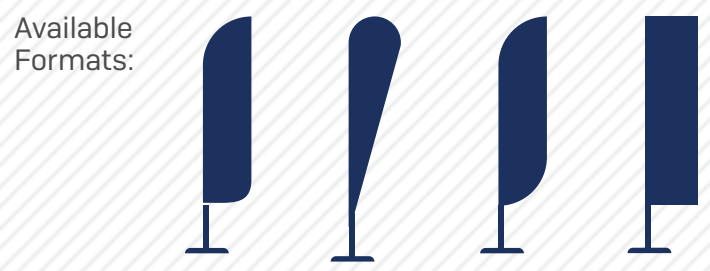

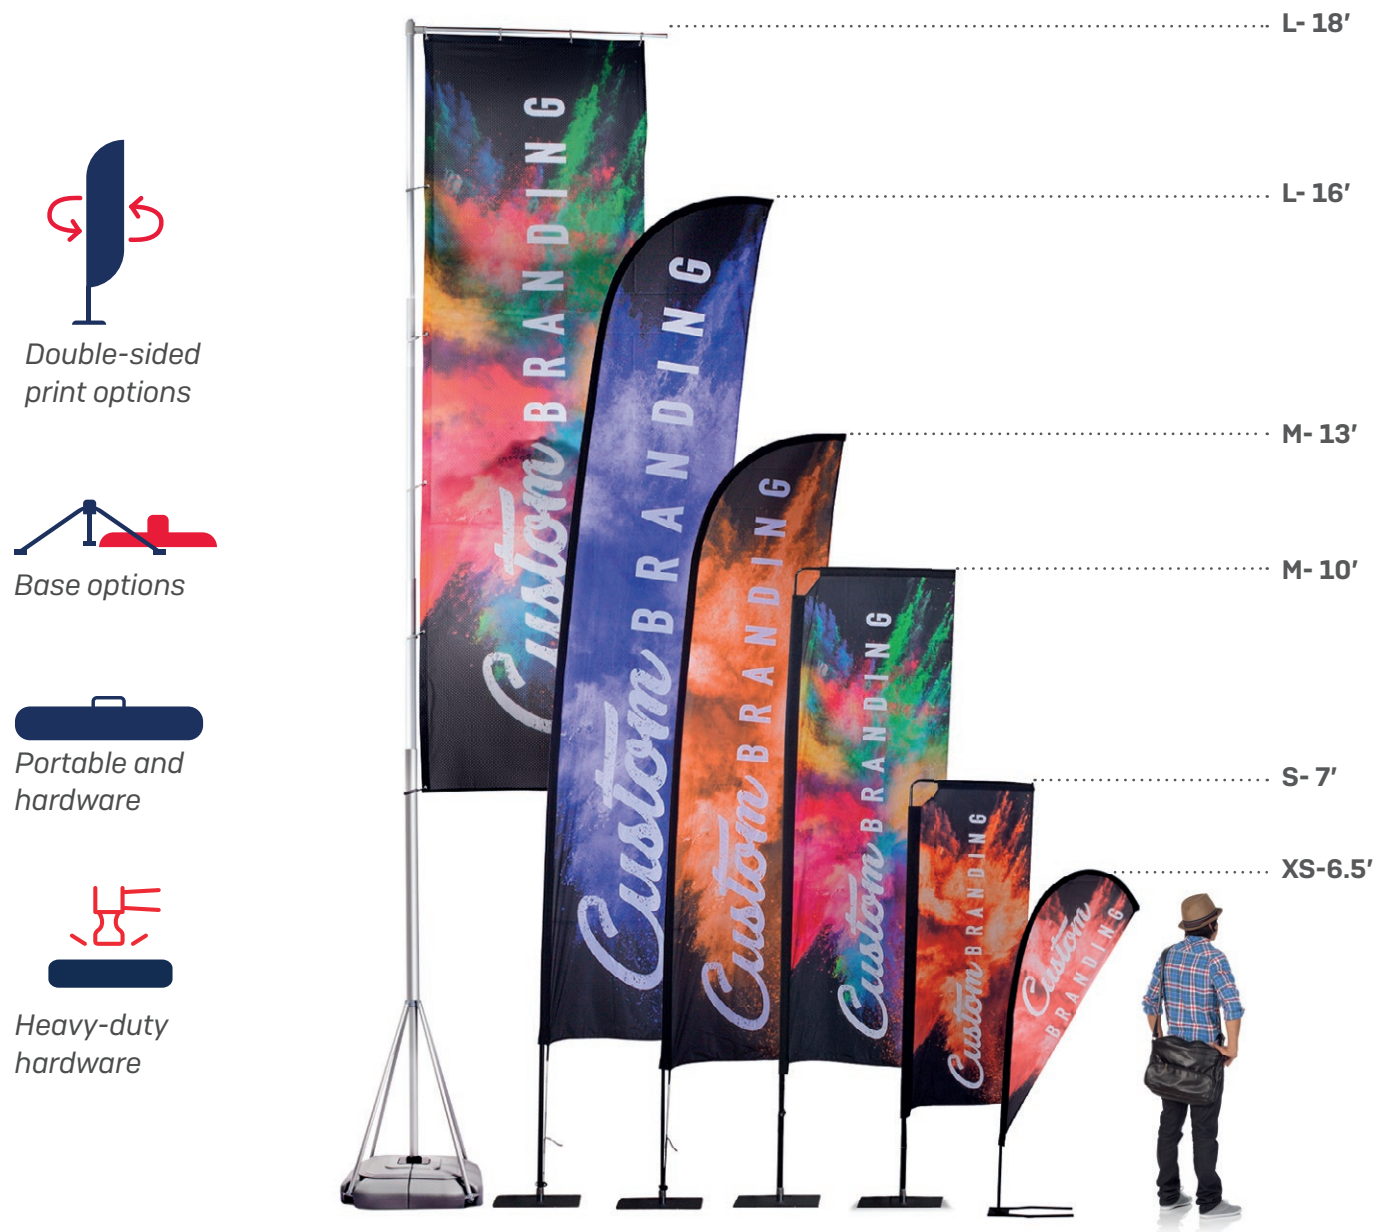

CUSTOM STEP & REPEAT BANNERS

Your brand, repeated in style. Tailored designs for a standout backdrop. Order now for event perfection!

EVENT FLAGS

Grab attention and promote sponsors.

TRAFFIC CONES & DRUMS

Lightweight, high-visibility solutions to guide crowds and vehicles.

ENDURAMAT

Our durable mats create stable surfaces for pedestrians and vehicles, protecting in-ground areas at busy events.

CABLE RAMP & ADA CABLE

SONCO's Cable Ramps and Protectors manage traffic, prevent trip hazards, and handle heavy loads. Ideal for busy venues.

Durable, high-grade materials.

Variety of cone sizes to suit your application.

Stackable design for neat, compact storage.

Molded, recessed handle for easy deployment & repositioning.

Recycled rubber tire-ring bases.

BOLLARD

SONCO's Bollards help manage traffic and protect key areas at Venues and Arenas. Easy to install and built to last, they create clear boundaries around entrances, parking lots, and restricted zones — keeping events in order.

HEIGHT GUARD

Height Guards help prevent costly damage by alerting drivers to low-clearance areas at Events. Their enhanced visibility helps guide pedestrians, keep walkways safe and mark restricted zones clearly. Durable and easy to install, they're a simple way to protect structures, vehicles, and crowds.

MESSAGE BOARD & ARROW BOARD

From light towers to message and arrow boards, our equipment helps direct traffic, guide crowds, and improve visibility at large events.

SPEED BUMPS & HUMPS

SONCO's Speed Bumps and Humps slow vehicles and protect pedestrians in busy areas like venues and arenas. They're easy to install, made to last, and help control traffic in parking lots, walkways, and around entrances.

PARKING SIGNS

SONCO's Parking Signs help organize vehicle flow and mark designated zones at Venues and Arenas. Built to last and easy to install, they clearly show parking rules around entrances, lots, and restricted areas so everything stays clear and in order.

WHY SONCO™
